

Academic Asia: Data Dictionary & Migration Questionnaire

Your input here is the most critical factor for a successful migration. Please review each item, confirm our understanding of even the simple fields, and provide details for the more complex ones. This will ensure the new database perfectly matches your workflow.

Part 1: Core Data & Duplicate Files

1. Files: Resolving Duplicate Data ("History" vs. No "History")

This is the most important question we need answered. We have received many files with a "History" version and a non-"History" version in the names of the csv files.

File Names	Our Initial Guess	CRITICAL QUESTION FOR YOU	Your Notes & Definitions
AA Student History.csv vs AA Student.csv	These tables store the core information for every student.	The data structure in these files is identical. Which file is the definitive, most up-to-date source for student data? This pattern repeats for all files below. We need to know which set of files to use as the "source of truth".	
AA Student SA History.csv vs AA Student SA.csv	These tables track a student's application to a specific school ("School Application").	Which of these two "School Application" files is the correct one to use for migration?	
(And all others)...	School, Student	For all pairs of files	

	Contact, School Contact, Student Officer, Student Visa, School Fee, School Note, School Course, Student Brief Intro, etc.	where one has "History" and the other does not, please confirm which one we should use as the master source for migration.	
--	---	--	--

2. File: AA Student History.csv (Core Student Data)

This appears to be the central table for all student information.

Column Name	Assumed Meaning	Questions for You	Your Notes & Definitions
aa_id	The unique, permanent ID for each student.	What is the business difference between aa_id and tmp_id?	tmp → aa_id
tmp_id	A temporary or secondary ID.	Is tmp_id a temporary ID used before a student is fully registered?	Yes
surname, firstname, chinesename	Standard personal details.	Confirmation needed.	Yes
photo, nation, passporttype, passportcopy, passportno	Photo and passport details.	Are these fields actively used and do they contain file paths or just flags?	Yes slash paths to file pending psc
birthday, gender	Standard personal details.	Confirmation needed.	Yes
address1, address2, chi_address,	Student's mailing address in English and Chinese.	Confirmation needed.	Yes

caddress1, caddress2			
tel, mobile, fax, email	Student's contact information.	Confirmation needed.	Yes
enrollemntdate	Date the student enrolled with Academic Asia.	Confirmation needed. (Typo in original column name)	Yes
course	The student's current or target academic year (e.g., "Year 9").	Confirmation needed.	student's target yr gp & entry year eg Year 9 Sep 2028
entryyear	The student's intended year of entry into a UK school.	Confirmation needed.	
sixthform	A flag or detail related to Sixth Form entry.	What does this column signify?	6th form Subjects
source, source2, ... source5	How the student heard about Academic Asia (lead source).	Why are there five source columns? Is there a priority?	no particular priority. can add them to one field
status	The student's current status in your system. We see "New".	What are the other possible values for this field (e.g., Active, Placed, Inactive)?	Active → Pending closed Dead New
lastupdate, staffid	Timestamp of the last update and the staff member who made it.	Confirmation needed.	Yes
remarks	A general notes field for the	Confirmation needed.	Yes input by staff

	student.		
loginname, loginpassword	Credentials for a student-facing portal or website?	Please confirm the purpose of these fields. Are they still in use?	used before, now do not use can explore student portal in the future
presentschooltype, presentschool	The type and name of the student's current school in Hong Kong.	Confirmation needed.	yes, go to sys, u can see the hot
aanews	A flag (1/0) for subscribing to AA news.	Is this still used?	yes
airportpickup	A flag (1/0) if the student requires airport pickup.	Confirmation needed.	yes
exampaper	Status related to an exam paper. We see "No Paper".	What does this field represent? What are the possible values?	the AA test paper for student
placementremarks, educationremarks	Specific notes related to placement and education.	Confirmation needed.	yes, staff type note
placement	A tag indicating the student's priority. We see "Hot".	What are the other possible values for this field and what do they mean?	Cold Hot Very Hot Warm

3. File: AA School History.csv (Master School List)

Column Name	Assumed Meaning	Questions for You	Your Notes & Definitions
school_id, name, address, country,	Standard school details.	Confirmation needed.	yes

city, county, postcode, tel, fax, website, email			
schooltype	The gender mix of the school (e.g., "Co-Ed", "Girls").	Confirmation needed.	Yes
si, sp, ra	Acronyms for school type ("Independent School"), program ("Senior"), and religious affiliation ("Anglican").	What do si, sp, and ra officially stand for?	S/i : independent or state s/p : Senior or Prep RA : Religion Affiliation
pupilno, boarderno, boarderage	School population statistics.	Confirmation needed.	Yes
lastupdate, staffid, remarks	Last update timestamp, staff ID, and a general remarks field.	Confirmation needed.	Yes
lat, lng	Latitude and Longitude.	All values are 0. Is this information unused? Can we ignore these columns?	unused can ignore
childvisaage	The minimum age for a child visa at this school.	Confirmation needed.	maximum
case, case, case	Three columns all named case containing 'Y'/'N'.	This seems to be an export error. What do these three 'Y'/'N' columns represent?	Accept Application Accept Child visa Accept General visa
loginname, loginpassword,	Login credentials and search	Are the login fields used? Is the	Not really

keyword	keywords for the school.	keyword field for internal searching?	Keyword is displayed in
---------	--------------------------	---------------------------------------	-------------------------

4. File: AA Staff.csv (Master Staff List)

Column Name	Assumed Meaning	Questions for You	Your Notes & Definitions
staffid, surname, firstname, joindate	Standard staff details.	Confirmation needed.	Yes
adminlevel	A number representing their access level in the system.	What do the different numbers (e.g., 6, 8) represent in terms of permissions?	# see print screen
loginname, loginpassword	Login credentials for staff.	Confirmation needed.	Yes
department, staffposition	The staff member's department and job title.	Confirmation needed.	Yes
lastupdate, remarks, email1, email2, tel, mobile, fax	Update timestamp and staff contact details.	Confirmation needed.	Yes
yearlycase, weeklycase, dailycase	These are all 0 in the sample.	What was the intended purpose of these fields? Can we ignore them?	they are used for consultants

Select school page
"K. Search" — can search key words

need to keep or use other method to display — can discuss??

AA student SA - csv

Part 2: Student Application & Progress Tracking

5. File: AA Student SA History.csv (School Applications)

This appears to be the central table for tracking a student's application journey for each school.

Column Name	Assumed Meaning	Questions for You	Your Notes & Definitions
aa_id, school_id, course, entryyear	Links the student to a school for a specific course and entry year.	Confirmation needed.	Yes
referral	A 'Y'/'N' flag indicating if this was a referral.	Confirmation needed.	Yes
registerdate, lastupdate, staffid	The date the application was registered, last updated, and by which staff member.	Confirmation needed.	Yes
aa_remark, result_remark, remark_to_school	Different notes fields.	What is the specific purpose of each of these three remarks fields?	aa-remark - staff use result-remark - after receive from school, result staff remark_to-school - remark we give to school
eventdate, eventtime	The date and time of a related event for this application.	Confirmation needed. Yes	input
enroll_status	The main stage of the application (e.g., "Awaiting	Could you provide a list of all possible values for this	can see in system.

	Testing", "Offered", "DEPOSITED").	status field and their meaning?	
enroll_sub_status	A more detailed secondary status.	What is this field used for? How does it relate to the main enroll_status?	see sys #
coursedetail, s_detail	More specific details about the course.	What kind of information is stored here?	see sys #
scholarship	A flag to indicate if a scholarship is involved.	Confirmation needed.	staff input
event	A free-text field naming the related event.	Confirmation needed.	no link to event #

6. File: AA Student Officer.csv

Column Name	Assumed Meaning	Questions for You	Your Notes & Definitions
(Table Purpose)	The main student table has one staffid. This table allows assigning <i>multiple</i> officers to one student.	Is this correct? For example, is this used to assign a primary consultant, a secondary, and an admin support person?	yes Priority 1 is the main consultant. (consultant - in charge) others are in the group to help
aa_id, consultant, priority	Links a student to a staff member with a priority level.	What do the priority numbers (1, 2, 3...) mean? Is 1 the primary consultant?	↓

7. Other Student Tracking Files

File Name	Our Initial Guess	Questions for You	Your Notes & Definitions
AA Student Visa History.csv	Tracks the visa application process. The many columns named case appear to be checkboxes for required documents and steps.	Could you please provide a key for what each case column (Y/N flag) represents in your visa workflow?	see system #
AA Student Travel History.csv	Tracks a student's flight details (flightno, airline) and airport pickup arrangements (pickupby).	The case column seems to indicate if travel is needed. Is this correct? What does journeyno represent?	see system #
AA Student Predeparture.csv	A registration list for "Pre-Departure Briefing" events, also logging guardianship and flight info.	How does this table work with the AA Student Travel file? Is data entered here and then copied over, or do they serve different functions?	see sys #
AA Student Log Book.csv	An audit trail or activity log for each student, with free-text notes of actions taken.	Should we migrate this as a historical "Notes" field for each student?	yes

Part 3: Events, Interviews & Scheduling

8. The Main Event Workflows ("TS", "II", "MA")

We have identified several types of events, each with its own set of tables.

File Name Group	Our Initial Guess	Questions for You	Your Notes & Definitions
The "TS" workflow (AA TS.csv, ...School.csv, ...Interviewer.csv, ...Exam.csv, ...Schedule.csv)	The file AA TS.csv contains names like "TOP SCHOOLS WEEKEND".	This is a critical set of tables. Does "TS" stand for "Top Schools"? Is the workflow: Create a TS event -> Add Schools, Interviewers, and Exams -> Schedule Students?	Yes TS stands for Top Schools Yes
The "II" workflow (AA II.csv, ...School.csv, ...Interviewer.csv, ...Exam.csv, ...Schedule.csv)	"II" stands for "Individual Interview".	Please confirm if "II" stands for "Individual Interview" and if the workflow is the same as for "TS" events.	See system #
The "MA" workflow (AA MA.csv, ...School.csv, ...Interviewer.csv, ...Schedule.csv)	"MA" likely stands for "Music Audition".	Please confirm if "MA" is correct and if its workflow is also similar.	See system #

9. General Events & Expos

File Name	Our Initial Guess	Questions for You	Your Notes & Definitions
AA Expo.csv & AA Event.csv	Master lists for "Expos" and other "Events". Each has a name, dates, location, and duration.	What is the key business difference between an 'Event' and an 'Expo'?	Expo: 2 expos a yr Event: individual events

AA Student Event Application.csv	The initial registration of a student for an overall event.	What is the workflow? Does a student register here first, and then get a specific time slot booked in a schedule file?	staff add event to the student if TS. book interview
AA Event Result.csv ??	Logs the outcome of a student's participation in an event (e.g., an offer was made).	How does this relate to the main AA Student SA History table? Does an offer here get updated there?	can go thru verbally
AA Scheduler.csv	A general-purpose scheduler for other meetings like "Consultation".	This seems to be a catch-all for any scheduled item that isn't a formal II, MA, TS, or Expo meeting. Is that correct? What are all the possible scheduletype and scheduleaction values?	sol 245 #

Part 4: School & System Data

10. Files with School-Specific Information

File Name	Our Initial Guess	Questions for You	Your Notes & Definitions
AA School Fee History.csv	This table lists school fees (feetype, fee) for each financialyear.	Is this information displayed to parents, or is it for internal use?	for internal use
AA School Entrance Exam	A master list of all possible entrance	The examformat and aaremarks	

History.csv	exams for each school.	columns contain very detailed text. Is it critical to migrate this information as-is?	Yes. need migrate
AA School Bank History.csv	Contains bank account details (bankname, bankacc, swift, etc.) for schools.	The banktype seems to specify the purpose (e.g., "Course", "Registration Fee"). Is this correct?	Yes
AA School Sup Info.csv vs. AA School Note History.csv	Both tables store supplementary text-based information about schools.	What is the difference between these two files? When would your team use one versus the other?	diff info for retrieving info. Can discuss how to store
AA School Visit History.csv	A log of visits made by your staff to schools, with visitlog and result notes.	This seems distinct from AA Student Visit History.csv (visits by students). Please confirm this table is for staff visits.	Yes staff visit report

11. File: AA General Selection.csv (System Configuration)

File Name	Our Initial Guess	Questions for You	Your Notes & Definitions
AA General Selection.csv	This appears to be a master lookup table that defines the allowed values (statustype) for dropdown menus throughout the old system based on	This file is incredibly helpful. Can you confirm that this is the system's "data dictionary" and that these are the definitive options	discuss

Legacy AI

	where it's used (statusfor).	we should use when building dropdown menus in the new system?	
--	---------------------------------	--	--
